Harbor Comments

To: ☐ HarborComments

The proposed Portland harbor clean-up plan does not do enough to protect my family. Under this plan we will NEVER be able to eat fish from the river. The wildlife that eats fish will never be safe. I believe the EPA should take whatever steps are necessary to remove the fish consumption advisory and give the public a date when we can expect that to happen.

The people and wildlife of the region have a right to safe water. This proposed plan does not deliver that.

Sincerely
